Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In this third of three interviews, COL (Ret.) Russell Thaden discusses his involvement with the initial invasion of Iraq in 2003 with V Corps in support of Operation Iraqi Freedom (OIF). In this June 2011 interview, COL Thaden discusses that he initially served as the division intelligence officer (G2) at the main command post in Kuwait before moving up to Baghdad in April of 2003, his day-to-day routine both in Kuwait and up in Iraq, and some of the misconceptions of the planning process for the initial invasion. COL Thaden concludes his interview with the observation, We were well-prepared. There was enough time and the conventional force was prepared for the conventional fight, unquestionably. There certainly was a pretty good bench[mark] of knowledge of how to do stability operations, and I think, in my personal opinion, it s more a failure of very high level senior leadership that we did not adequately prepare for the post-conflict operations. There were folks that knew how to do that; we could have done that; it was within our capability and experience base. In well-done stability operations, it s my personal view that an insurgency was not a necessary event. It need not have occurred. There certainly are views, and I don t say that they re wrong, that an insurgency was inevitable; depending on how this had been conducted, I m not persuaded that s the case.
