# ADVANCED CONTROL STRATEGY BASED ON A SLIDING MODE APPROACH

Advanced control strategy  
based on a Sliding Mode  
approach

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Power electronics is continuously developing in various multidisciplinary fields for example in the renewable energy conversion systems. Especially, as recently we observe fast development in control theory, computational intelligence, wind energy control, photovoltaic system control, and the supervision of conversion systems which all strongly influence new solutions in control of power electronics. Therefore, the chapter is written by the author in the area of modern advanced control methods that penetrate the control...
