Brand New Book ***** Print on Demand *****.Excerpt from Waste Reclamation: Organization, Functions, and Objects of the National and Local Service The plan contemplates the establishment of a national waste reclamation system - comprehensively organized, effective and systematic, and animated by a sympathetic understanding of the purposes and principles of the Service. Thus the importance of the work will gain wide recognition. It will appear in its true light as an essential element in economic life. And it is therefore the earnest expectation of the Service that, as soon as practicable, it will be taken over by the several municipalities or other local governments and made permanent through the creation of a department or bureau for the salvage of waste materials. It is the intention to secure, wherever possible, appropriate legislation for the attainment of that end. Until such time as that result is accomplished, the work is to be carried on through the agency of local waste-reclamation Councils.
