## ATMOSPHERE RE-ENTRY SIMULATION USING DIRECT MONTE CARLO METHOD (DSMC)

Condition: New. Publisher/Verlag: Edizioni Accademiche Italiane | Validation study of a new fluid dynamics simulation technique, the Monte Carlo method, valid for dense and rarefied gas | Hypersonic re-entry vehicles aerothermodynamic investigations provide fundamental information to other important disciplines like materials and structures, assisting the development of thermal protection systems (TPS) efficient and with a low weight. In the transitional flow regime, where thermal and chemical equilibrium is almost absent, a new numerical method for such studies has been introduced,...
