Brand New Book ***** Print on Demand *****.Millions of motorists crash - few realize that vehicles record crash data! BLACK BOXES: Event Data Recorders updates important developments and activities in 2005, and continues to describe in simple everyday language, the newest accessory on-board passenger motor vehicles - the Motor Vehicle Event Data Recorder (MVEDR). This automotive equivalent of an airplane's flight recorder or black box is intended to solve the mysteries of car crashes and improve the safety of our roads.
