Laboratory and Field, Manual of Botany (Classic Reprint)

By Joseph Y. Bergen

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 278 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. Excerpt from Laboratory and Field, Manual of Botany. This manual offers material for much more than a year's laboratory work. This is made necessary by the fact that instructors differ widely in their views as to what matter should be presented in an introductory course under the variety of conditions obtaining where botany is taught. A course must necessarily be framed selectively, and the chief alternatives are discussed in the opening paragraphs of the Introduction. The authors fully recognize the fact that no set of directions of only moderate fullness can tell the student all that he needs to know about choice of material, apparatus, and manipulation. It is assumed that much is left to be explained by the instructor, and constant mention is made of general and special laboratory guides which may be consulted for needed details. The student in the laboratory is not to consider himself as merely the corroborator of facts already ascertained: he is to interrogate mainly not the instructor, not the manual, but the plant itself. The directions here given are, therefore, for the most part suggestions on...

Reviews

The best book i actually read through. I have got read and so i am sure that i am going to going to read through yet again yet again down the road. You can expect to like the way the author compose this pdf.
