Brand New Book ***** Print on Demand *****.Excerpt from Engraving for Illustration A Philosopher and writer has declared that in our fine arts, not imitation, but creation, is the aim. It is to emphasise a distinction between an imitative and a creative art that the following chapters are offered. Engraving for Illustration is pre-eminently a creative art by which the work of the artist is translated, in order to render the effect of his design in such a form as will admit of rapid and effective reproduction. It is, moreover, a popular art with a well-defined educative principle underlying the numerous phases of its manifestation; while, at the same time, its historical and general interest will commend this brief record of its progress and influence to many who are lovers of art for art's sake.
