RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 120 pages. Original publisher: Washington : U. S. G. P. O. , 2010. LC Number: KF26 . E55 2009zb OCLC Number: (OCoLC)591599794 Subject: Emissions trading -- United States. Excerpt: . . . 11 The Pew Center on Global Climate Change is an independent non-profit, non-par-tisan organization dedicated to advancing practical and effective solutions and poli-cies to address global climate change. Our work is informed by our Business Envi-ronmental Leadership Council (BELC), a group of 44 major companies, most in the Fortune 500, that work with the Center to educate opinion leaders on climate change risks, challenges, and solutions. The Pew Center is also a founding member of the U. S. Climate Action Partnership (USCAP), a coalition of 25 leading busi-nesses and five environmental organizations that have come together to call on the federal government to quickly enact strong national legislation to require significant reductions of greenhouse gas (GHG) emissions. The Pew Center has long supported enactment of an economy-wide GHG cap-and-trade bill as a primary measure for reducing U. S. GHG emissions. A cap-and-trade program provides an excellent division of responsibilities: Government establishes the public policy objective - to reduce emissions by a certain amount in a given year - and businesses decide how to meet that objective as cost effectively as pos-sible. The Pew Center believes, as does USCAP, that the most powerful way to con-tain costs is a robust cap-and-trade program. It is clear from economic theory, from our experience with the U. S. acid rain program, and from a vast body of economic modeling analysis, that cap-and-trade will dramatically reduce the costs of reducing GHG emissions compared to traditional command-and-control regulatory ap-proaches. Cap-and-trade minimizes cost because it provides industry...
