This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

No one goes into a marriage wanting it to end. When we say I do we really mean it. We really do want to love, honor, cherish, and all those other things til death do us part. So why, then, do half of the couples who say those words (and mean them) end up divorced? Most marriages that end in divorce start down that path slowly. It s a gradual process that is often subtle until one or both people have no desire to salvage and save what used to be the best part of their life. Sad, isn t it? Don t let this happen to you. No matter what condition your marriage is in, make today the day you decide to make your marriage the life-long commitment of love, friendship, partnership, and family it is meant to be. For some of you this book will be a refresher course-a friendly reminder of why you should treasure your marriage and how to do so. For others, however, this book will hopefully be a wake-up call; one that will give you the push you need to do a 180o and get your marriage back on track before it completely derails. Either way, nothing you read or hear will matter if you don t commit to putting it to great use. So.before you go any further make a tangible commitment to do the assignments that follow and put your heart, soul, and mind into bringing your marriage to the state of feeling that forever isn t long enough to be together. If you. Don t know how to get started with changing your marriage.You can t talk to your spouse...
