PREGELATINIZED ENSET STARCH

Pregelatinized Enset Starch
Preparation, Characterization and Its Pharmaceutical Application

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Preparation, Characterization and Its Pharmaceutical Application | Starch is the most abundant storage reserve carbohydrate on the planet earth. It is used since a long time as excipient in pharmaceutical preparations. Native starches, however, are inherently unsuitable for most applications and; therefore, must be modified chemically and/or physically to enhance their positive attributes and/or to minimize their defects. Pregelatinized starch is a common type of physically modified starch with wide applications. This...
